Notes to editors:

Stratex International Plc is an AIM-quoted exploration and development company currently focusing on gold and base metal opportunities in Turkey. Directed by a highly experienced resource sector management team, Stratex's activities will identify quality mineral resources, primarily gold, silver, copper, molybdenum, zinc, and nickel.

Stratex has developed four high-priority prospects in central and western Turkey and is undertaking an extensive exploration and resource drilling programme, together with mapping and sampling of key prospects. The potential of the Inlice and surrounding Konya projects has been substantiated by the comparison by Dr. Richard Sillitoe with the Maricunga district in Chile. Prior to 1980, the Maricunga had no known copper or gold mineralization and due to new exploration has past production and reserve / resources of 40 million ounces.
